Director
Defense Intelligence Agency
The Pentagon

Dear Joe:

Confirming our telephone conversation of Friday, [redacted] called me about the SIGINT Summary published by NSA which he says has been the cause of some concern to State Department analytical and intelligence components. I told him that you had initiated a discussion with General Carter and Jack Smith of CIA on the subject and that I thought that you would probably welcome a representative of the State Department at meetings which were held for this purpose. I also advised him that it was my understanding that you had designated General [redacted] to represent you in this connection.
